

Module 8: The Developer API Development with Power BI

- [Module 8: The Developer API Development with Power BI](#)
 - [Lab: Using Marketplace Visualizations](#)
 - [Exercise 1: Use a Custom Visualization](#)
 - [Task 1: Prepare the Lab Environment](#)
 - [Task 2: Using Custom Visuals](#)

Note: Lab Solution is present in `Desktop\power-bi-quickstart\Labfiles\Lab08\Solution` folder:

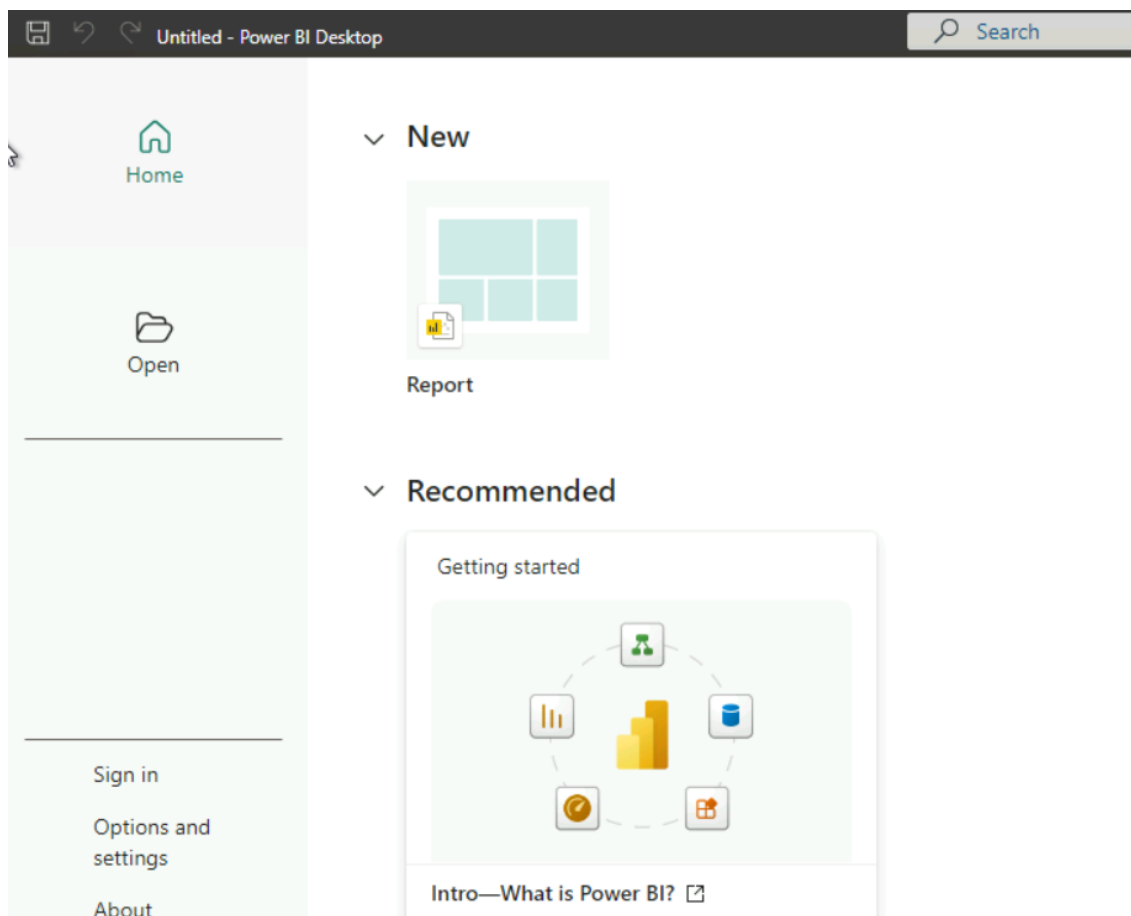

Exercise 1: Use a Custom Visualization

Task 1: Prepare the Lab Environment

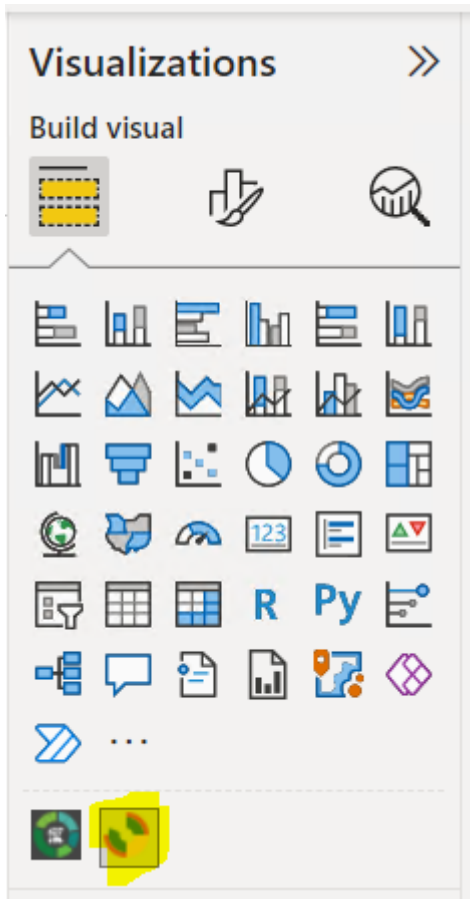

Lab environment is already setup.

Task 2: Using Custom Visuals

1. On the Taskbar, click **Power BI Desktop**.
2. Click **New** > **Report**:

3. In the **Power BI Desktop** window, click **Open other reports**.
4. In the **Open** dialog box, browse to **Desktop\power-bi-quickstart\Labfiles\Lab08\Starter\Project**, click **Adventure Works Sales.pbix**, and then click **Open**.
5. In the PowerBI application in the Visualizations panel, locate the **Sunburst** visual and click it:

6. Drag **Color** from *SalesLT Product* in **Group**.

Visualizations
